Continuation of 6. does NOT place the application in condition for allowance because: of the reasons as set forth in the prior office action. Note claim 19-29 was rejected based on obviousness over the prior art. See the whole rejection regarding to claim 19-29. The first sentence of the rejection should be "claims 19-29 are rejected under 35 U.S.C. 103(a) as unpatentable over ..." it is an inadvertent typographic error. Regarding claims 36-46, note the application as original filed, lacks direction, guidance or working examples for making the mead containing oils. Particularly, there is not direction for how to make mead acid containing oil, not arachidonic acid containing oils.
